

DUO

DOUBLE YOUR PLEASURE. FEEL COMPLETE.

The perfect combination of powerful clitoral and G-spot stimulation. **The Womanizer™ DUO** is an innovative sex toy for the discerning woman, who has enjoyed sex toys in the past and is familiar with the Womanizer brand, and is now looking for something really special.

Pleasure Air™
Technology

smart silence

vibrator

Break through barriers: the innovative **Pleasure Air™ Technology** was specially developed for you and your body. It tantalises your clitoris with sucking and massaging changes in air pressure. At the same time, the vibrator stimulates your G-spot with a powerful motor – the most powerful currently available on the market. So you can reach new, previously unknown heights of pleasure.

Your **Womanizer™ DUO** features the innovative **Smart Silence™** function. It ensures that your sensual companion only starts the tantalising interplay between clitoral stimulation and vibration once the stimulation head comes into contact with your skin. Until contact, the **DUO** remains in standby mode, which you can see by the light in the head. If the stimulation head is removed from your body and placed to one side, the **DUO** goes back to standby mode.

The clitoral stimulator and the vibrator both have 12 intensity levels to choose from. That alone provides tantalising interplay. But there's more: the **vibrator** also has 10 additional vibration modes, so you can always find the right pleasure combination for you. These patterns will trick and tease your G-spot to ever-new surprising and harmonic heights of pleasure.

womanizer™
